The Breds of the German Pensantr.

[Foreign Letter]

The dwelling house—or, rather, the apartments—are at one end of the barn and are separate from the story-room for hay and grain by a brick partition. The sleeping apartments are made in the sand duning room being used by the family, while the one in the partor is reserved for the stranger within their parts. The walls selected for the best are the outside ones, as they are this width. The walls selected for the best are the outside ones, as they are this width. The walls are plastered nicely, and the beds are simply a niche large enough for a bed, the wall presenting an unbroken surface, save the opening where you get into bed.

When the surface is the surface is the surface of an ordinary height, while others require a test-pladler to reach them. The beds are made first of a lot of loose straw, surmounted by a thick feather mattress is the surface, and the surface is the surface of the surface is the surface of the surface is the surface in the surface is the surface in the surface is the surface in the part of the surface is the surface in the surface is the surface in the part of the surface is the surface in the surface is the surface in the part of the surface is the surface in the part of the surface is the surface in the part of the surface is the surface in the part of the surface is the surface in the part of the surface is the surface in the part of the surface is the surface in the part of the surface is the surface in the part of the surface is the surface in the part of the surface is the surface in the part of the surface is the surface in the part of the surface is the surface in the part of the surface is the surface in the part of the surface is the surface in the surface in the surface is the surface in the surface in the surface in the surface is the surface in the surface is the surface in the surface is the surface in the surface is
